

## **Application for Consideration to take American Sign Language (ASL) Course**

This form is intended for non-CSD majors (including those with NFA status).

ASL courses at FSU are designed and reserved for CSD majors. If seats remain on the first day of class, non-CSD majors may be granted admittance on a limited-case basis. At no time are seats guaranteed to be available to non-CSD majors, nor are non-CSD majors guaranteed continuance in the ASL sequence after being accepted into one class. **Priority is given to students with the highest academic need.**

If granted entry into the course, you will be notified after the first class session, and will be responsible for acquiring information missed. You must reapply each semester of interest, even if you have previously applied and/or been accepted into another ASL course at FSU. By completing this form, you acknowledge that you are aware of these procedures.
